MEMBRANE SWITCH ASSEMBLIES

CUSTOM MADE FOR SINGLE-USE MEDICAL DEVICES

If you need custom made, disposable membrane switch assemblies for medical and surgical instruments, check with EASTPRINT Incorporated of No. Andover, Massachusetts. Their multiple manufacturing facilities are approved by several major medical OEMs including Johnson & Johnson and Welch Allyn.

EASTPRINT Single-Use Membrane Switch Assemblies are custom designed and manufactured to OEM specifications for use in a wide variety of hand-held medical and surgical devices. Available for customer integration or fully assembled with plastic housings, cabling and connectors, these disposable switch assemblies can be alcohol wiped and packaged into a single SKU.

Produced with actuation forces and a tactile feel that can be specific to the instrument design, EASTPRINT Single-Use Membrane Switch Assemblies can incorporate key centerline spacing from <0.5". They can be produced to quality standard PQ-MP-09-93-010 and meet IP-67 requirements.

EASTPRINT Single-Use Membrane Switch Assemblies are priced according to design and quantity requirements. Price quotations and representative samples are available upon request. The firm has manufacturing facilities in Massachusetts and Juarez, Mexico.
